COMPOST CORNER

This term Orca class is learning about Koh Lanta, and part of that study is looking at how we can protect this beautiful island.

On Wednesday 18th October we visited Costa Lanta to learn all about composting, and how this can be used to help protect the island. The students had a wonderful time and learnt a lot about the process. Thanks to Nee and Aruna for their help and instruction. The class will be setting up a school composting station and hope everyone will get involved. Details to follow.

As well as the compost project being set up by Orca class, we also have plans to introduce a small recycling system in GVS. This will help the school, and the families at the school, to recycle more of their waste and protect our lovely island.

Important Dates

Monday 30 October
School open again

13-17 November
Maths at the Movies Week

Tuesday 5th December
School closed

Monday 11th December
School closed

OCEAN DANCE

Last week, we were treated to a wonderful dance by Octopus and Seahorse classes in Friday's assembly. Using various pieces of music, they showed different aspects of sea and beach life. It was great entertainment for a Friday afternoon. Don't forget you are welcome to come along to any Friday assembly. Starting time is 2.40pm.

LATEST AWARD WINNERS

SUPERSTARS

Friday 6th October

Orca Class
Lalita for good questioning.
