## FLOATING BASKETS

Loy Krathong was on Friday 3rd November and all the children joined in to celebrate this wonderful festival.

Each class spent time making their own personalised krathong under the expert guidance of our Thai staff. Made from a mixture of banana tree trunk, banana leaves and flowers, the final products were stunning. They were then taken home to set afloat on the water in the traditional manner.

The children thoroughly enjoyed the activity and we would like to thank all the Thai staff who spent hours of their own time preparing the materials. We would also like to thank all the parents for preparing some really beautiful flowers, to make the krathongs look so wonderful.

## LATEST AWARD WINNERS

### SUPERSTARS

Friday 3rd November

Orca Class  
**Louis** for being organised.

Seahorse Class  
**Ruangkow** for excellent listening.

Octopus Class

Maths at the Movies Week

**Tuesday 5th December**  
School closed

**Monday 11th December**  
School closed

**Friday 15th December**  
Golden Mile

## A MESSAGE FROM ORCA CLASS

We have been to Costa Lanta to see the process of composting and we have decided to do it too.

Composting involves using organic materials to make fertilisers, which we will use to start our own edible garden. We are going to need leaves, dried cow waste, food waste and water. We would appreciate it if you could bring any of the items that are needed, except the water!

We shall also be recycling paper, plastic, fabrics and batteries because we want to help save our ecosystem and environment. Some will be reused, but most of it will be taken to the recycling centre. The paper goes to Animal Welfare. Keep watching in the school hall for details.

**and finally...**

next week — a funny film to watch and lots of maths. Oh heaven!
